

Product Picture	Product Name	Product Code	Description
	3-in-1 Wooden Stacking Toy	Nikki0001	<p>3-in-1 wooden stacking toy with shape sorting and early learning functions</p> <p>Includes geometric blocks, stacking base, and mini xylophone</p> <p>Made of natural wood with smooth edges and non-toxic paint</p> <p>Helps develop hand-eye coordination and basic cognitive skills</p> <p>Suitable for preschool education and daily play</p>
	Wooden Matching Puzzles Blocks	Nikki0002	<p>A tactile early-learning set of nested wooden shapes, where each piece fits snugly into its custom slot on the board. With layered geometric forms (squares, hearts, hexagons, stars) in bright, distinct hues, it turns shape recognition into a satisfying "click-and-fit" game. Designed to build fine motor control, spatial reasoning, and pattern recognition in toddlers and preschoolers, it's a quiet, engaging tool for independent play or guided learning at home or in the classroom.</p>
	Kids Wooden Memory Chess	Nikki0003	<p>Natural wooden memory chess with smooth edges and non-toxic paint. Features a round wooden board, color-bottomed pegs, and a colored dice. Players roll the dice to match colors and retrieve pegs, training visual memory, color recognition, and hand-eye coordination for children aged 3+. Ideal for family bonding and early education.</p>
	Wooden Tangram	Nikki0004	<p>A timeless Chinese puzzle reimagined for modern play, featuring 7 vibrant geometric pieces that can be rearranged into thousands of designs—from animals and boats to abstract patterns and letters. Housed in a sturdy wooden frame, it encourages open-ended creativity and problem-solving, helping kids visualize spatial relationships and think logically. Whether used to follow classic tangram challenges or invent new shapes, it's a versatile tool that grows with children, blending cultural heritage with hands-on learning.</p>
	Wooden Balancing Cactus Building Blocks	Nikki0005	<p>Inspired by desert cacti, this wooden toy blends natural aesthetics with interactive play. Each letter-marked, droplet-shaped piece is crafted from smooth natural wood and colored with food-grade water-based paint. Players build the cactus by inserting pieces into the base, challenging their balance control and focus. It develops fine motor skills, spatial awareness, and letter recognition, while doubling as a charming Nordic-style desktop decor. Ideal for kids aged 2+ and family bonding.</p>
	Wooden Cartoon Block Puzzles	Nikki0006	<p>Cute cartoon-shaped wooden puzzles (monkey, dinosaur, giraffe, etc.) with numbered pieces. Kids assemble blocks into complete characters, learning number order and fine motor skills. Smooth natural wood, bright colors, ideal for early education and family play for ages 2-5.</p>
	Wooden Tumbler Stacking Toy	Nikki0007	<p>Adorable animal-topped wooden stacking toy with a wobbly base. Toddlers stack gradient-colored rings by size, learning size sorting and color recognition while developing fine motor skills. Smooth edges and non-toxic paint make it safe for 1-3 year olds.</p>

Wooden Tetris Puzzle

Nikki0008

Classic Tetris-style wooden puzzle with colorful geometric blocks. Players fit pieces into the wooden frame to fill all gaps, training spatial reasoning and problem-solving skills. Smooth natural wood, non-toxic paint, ideal for all ages
